

Adding the New Toshiba Printer

If your printer does not appear automatically, please follow the steps below to add your new Toshiba printer to your Windows computer:

1. Open your computer's Start menu in the bottom left of your screen, and search for Printers & Scanners as shown below:

2. Select and **Remove** the printer if the printer name contains umdar.umassd.edu in the name.
3. At the top of the Printers & Scanners window, select **"Add Device."**

6. You will see your printer's name in the following format: Building-Room-Department-Model number
For example, someone in CITS would see the Toshiba LIB-440-CIT-TS2525AC.

7. Select the printer and click **Next**. The printer will start installing:

8. The printer should add successfully and the window will close automatically with no further prompts.
